

Optimal Expands Presence in Europe and Israel with Addition of New VARs

Increases global footprint for customer sales and support

San Jose, 21 June 2006 – Optimal Corporation, a world leader in IC package, SiP, PCB power, signal and thermal integrity 3D analysis software today announced the addition of two new value added resellers (VARs) in Germany and Israel.

FlowCAD EDA-Software Vertriebs GmbH, headquartered in Munich, is the largest EDA VAR in Germany and with its network of subsidiaries will also cover Austria, Switzerland, Liechtenstein, Hungary, Poland, Ukraine, Romania, Moldova, Bulgaria, Czech Republic, Serbia and Montenegro, Bosnia Herzegovina, Croatia, Former Yugoslav Republic of Macedonia, Albania, Slovenia and Slovakia.

“With today’s high performance electronics, it became clear to us that we needed a strong 3D signal and power integrity analysis solution“, said Dirk Mueller President of FlowCAD. “The Optimal products are very open and integrate cleanly into our supported design flows”.

EDA Integrity Solutions Ltd., headquartered in Hertzeliya, is a leading EDA VAR in Israel, a provider of Electronic Design Automation software and services that enhance and accelerates the 'design and realization' of advanced electronic systems. EDAis Ltd offers a variety of pre-sales consulting, system integration, EDA tools training and post-sales support.

“We have had our eye on Optimal for some time”, stated Assaf Shoavi, General Manager of EDA Integrity Solutions. “We are thrilled to be a part of Optimal’s expansion and have already identified several opportunities where the Optimal technology can help Israeli electronics companies”.

FlowCAD and EDA Integrity Solutions join Medeos in Italy as authorized VARs for Optimal Corporation effective immediately. “Having established our presence in North America, Asia and Japan, our next obvious objective was to do the same in Europe and Israel”, said Dave DeMaria, Optimal CEO. “Many of our customers have design operations around the world, demanding local support. We are honored to add these world-class outfits to our existing direct and indirect sales operations”.

About Optimal Corporation

Optimal Corporation, founded in 1995, is the leader in 3D power, signal and thermal integrity analysis for IC Package, System-in-Package (SiP) and PCB design. Our innovative solutions enable design teams to concurrently analyze and optimize the IC together with the Package and the Packaged IC on the PCB.

By providing the highest performance, best ease-of-use and pinpoint accuracy, our solutions allow engineers to create designs optimized for power and signal integrity in the shortest possible time. Through seamless integration with all of the major CAD design flows, Optimal solutions help customers achieve the shortest and most efficient overall design cycle time.

Optimal’s technology is embedded in the Cadence® Allegro® flow and endorsed in the TSMC Reference Flow. Optimal is a TSMC Technology Alliance Partner and a member of the Cadence Connections® Emerging Solutions Program.
